CYES SILICONE

RFQ Checklist / Custom Silicone Parts

Complete this sheet before you send a request - it speeds up the quote by one round-trip.

1 Contact

[ ] Name / Company / Business email / WhatsApp (with country code)
[ ] Target market and any brand / retail programme requirements

2 Part identification

[ ] Part name and function; quantity per order and annual volume
[ ] CAD file (STEP .stp / IGES .igs / DWG / DXF / Parasolid .x_t) or a sketch with dimensions
[ ] If no CAD: cross-section photo, overall size and critical dimensions (mm)

3 Material & hardness

[ ] Silicone type if known (VMQ / HCR / LSR / FVMQ) and Shore A hardness
[ ] Colour (Pantone if matched) and special properties (conductive, optical, self-lubricating)

4 Compliance

[ ] Target market: FDA 21 CFR 177.2600 / EU LFGB / REACH / RoHS / USP Class VI / ISO 10993
[ ] Documents you require with the order: material TDS, CoA per batch, extraction test report

5 Dimensions & tolerance

[ ] Which dimensions are sealing- or fit-critical (mark them on the drawing)
[ ] Tolerance class required (ISO 3302-1:2014, e.g. M2 / M3 / M4) or your drawing standard

6 Production & inspection

[ ] Post-cure requirement, mould tool life expectation, PPAP / FAI level if applicable
[ ] Inspection plan, packaging and labelling requirements

7 Commercial

[ ] Target unit price (if any), target delivery date, Incoterm and destination port
[ ] Tooling ownership and any NDA requirements
